THE MASTERPLAN LITE

**The same foundation. The essential build. A number
that fits where you are right now.**

FROM \$20,000

PRODUCT BROCHURE • 2026

BUILT ON PURPOSE

FIFTY THOUSAND IS A REAL DECISION

And it is not the right decision for every company yet.

So we built a smaller version. Here is exactly what it is, and just as importantly what it is not, because the temptation with a smaller version is to quietly water down the part that matters most and hand you something cheaper that does not work.

THE FOUNDATION DOES NOT SHRINK

Same Manifesto. Same stakeholder interviews. Same market and competitor study. Same Verification section. Same review passes. Same standard, which is that a competitor could not sign it unchanged.

That block stays the same size and it always will, because everything else gets built on top of it. A thin Manifesto does not produce a slightly weaker build. It produces expensive guessing, and you pay for that twice.

	MASTERPLAN LITE	MASTERPLAN
Manifesto and Verification	Full	Full
Identity system and brand book	Full	Full
Website	8 pages	20 pages
Video	3 videos	11 videos
Brand photography	Not included	50 photographs
Social graphics	Not included	24 with copy written
Print and design	Core pieces	6 pieces
Branded items	Not included	33 items

WHAT YOU GET

THE MANIFESTO

The full document, built the same way, with Verification ahead of the Declaration. Plus the Plain Page and the Brand File.

A FULL IDENTITY SYSTEM

Logo with every variation you need, color palette, type system, imagery direction, and a brand book your team and your vendors can actually follow.

AN EIGHT PAGE WEBSITE

Written from your Manifesto rather than filled into a template.

A MESSAGING KIT

So the person answering your phone and the person writing your proposals are finally using the same words.

YOUR CORE PRINT

The pieces you hand somebody across a table.

THREE VIDEOS

Not a library, but not nothing. These three were chosen because they are the ones that cannot be replaced by written copy.

ORIGIN STORY

Where the company came from and why it was started. Drawn straight from the Origin section of your Manifesto. The most human asset in the set and the one nobody can copy.

GENERAL PROMOTIONAL VIDEO

Built to sell what you actually sell, to the audience you actually serve. Runs on the homepage, opens presentations, plays at events.

CLIENT TESTIMONIAL

Outcome proof in a customer's own words, which is the only proof a skeptical buyer fully credits.

What is not included. The fifty-photograph library, the social graphics package, the branded items, and the twelve-page difference in the website. If you already have usable photography you are fine. If you do not, that is the first thing to add later, and we would rather tell you now than let you find out at a shoot that was never scheduled.

LATER IS A REAL OPTION

What you spend here credits toward the full MasterPlan for twelve months. You are not starting over and you are not paying twice. The foundation is already built, so a later upgrade is production rather than discovery.

IT GETS USED, NOT FILED

The Lite carries the same adoption package as the full build. An implementation handbook, a check-in at thirty days, another at ninety, and six coaching sessions through a partner organization. The work performs when it is adopted, and adoption is a change in behavior rather than a good intention.

WHO THIS IS RIGHT FOR

EARLIER THAN FIVE MILLION

The full build would be a stretch and a stretch is not a foundation.

YOU NEED TO START, NOT FINISH

You would rather begin correctly at a size you can carry than delay another year.

YOUR PHOTOGRAPHY STILL HOLDS UP

You have images you are not embarrassed by, so the library is not your gap.

THE WEBSITE IS THE BOTTLENECK

What you own was built for a smaller version of this company.

WHO THIS IS NOT FOR

An owner who wants the identity work skipped. There is no version of this that starts at design. If what you want is a logo and a website without the document underneath, we are the wrong firm and we will say so.

LET US FIND THE RIGHT SIZE

Start with an INSIGHT and we will tell you honestly which of these two fits, including when the answer is neither.
